TECH LEAD | SENIOR BACKEND ENGINEER

Node.js • Microservices • PostgreSQL • AWS • System Design • Scalable Architectures

PROFESSIONAL SUMMARY

Backend-focused Tech Lead with 8+ years of experience designing and delivering scalable enterprise applications across fintech and edtech domains. Expertise in Node.js, Express.js, Python, FastAPI, PostgreSQL, AWS, Docker, Microservices, and System Design. Proven success building high-performance APIs, optimizing database performance, reducing latency, integrating third-party platforms, and leading engineering teams. Strong experience collaborating with product, AI, frontend, QA, and business stakeholders to deliver secure, scalable, and customer-centric solutions.

TECHNICAL SKILLS

Backend:	Node.js, Express.js, TypeScript, JavaScript (ES6+), Python, FastAPI, PHP, CodeIgniter
Architecture:	Microservices, REST APIs, JWT Authentication, Redis, RabbitMQ, System Design, Event-Driven Design
Databases:	PostgreSQL, MySQL
Cloud & DevOps:	AWS Services, Docker, CI/CD (GitHub Actions, Jenkins)
AI & ML:	LLMs, RAG, Langchain, STT/TTS
Tools:	GitHub, Jira, Postman, VS Code, Cursor, Claude Code

PROFESSIONAL EXPERIENCE

Senior Software Engineer

Aug 2024 – Present

WIZR | Eduvanz Financing Pvt. Ltd., Mumbai

- Engineered distributed backend services for multiple modules, reducing API latency by 30–40% and supporting a scalable platform serving over 100,000+ users.
- Designed and implemented multi-tenant SaaS architecture with plug-and-play business logic and configuration-driven workflows, eliminating the need for code changes and improving client customization efficiency by 10%.
- Implemented a Redis-based client-specific caching layer for the product catalog API, reducing response time by 50–60% and significantly lowering database load.
- Designed and implemented asynchronous email and assessment notification workflows using RabbitMQ, improving application responsiveness and ensuring reliable message delivery.
- Delivered targeted enhancements to React-based user interfaces and optimized frontend-backend API integrations, resulting in improved application responsiveness and seamless end-to-end user experience.
- Collaborated with DevOps teams to automate GitHub and Jenkins CI/CD pipelines, reducing deployment dependencies and improving deployment efficiency by 15%.
- Diagnosed and resolved production incidents using system-level debugging, reducing resolution time and restoring service stability.
- Collaborated with cross-functional teams to deliver production-ready releases.

Software Engineer

Jun 2018 – Jul 2024

Eduvanz Financing Pvt. Ltd., Mumbai

- Built and maintained backend systems powering fintech products and lending workflows.
- Designed enterprise-grade REST APIs and microservices for customer onboarding and financial operations.
- Led integrations with payment gateways and external platforms.
- Conducted code reviews, production deployments, troubleshooting, and mentoring activities.

KEY PROJECTS

Frontline Microsites for Corporates:

- Designed and Developed multilingual corporate microsites with AI-powered one-way and two-way communication capabilities.
- improving user participation and communication effectiveness across corporate programs
- Worked closely with AI engineers to design, integrate, and launch AI-driven engagement features.

Frontline Analytics Portal:

- Designed and Developed backend APIs, onboarding workflows, and analytics dashboards
- enabled enterprise reporting and improved visibility into employee learning and engagement metrics.

WiZR – Merchant Integration & CMS Platform:

- Designed uniform backend APIs to integrate with multiple merchants with key based authentication systems.
- Designed and developed a Content Management System (CMS) to support the business team to maintain course catalog in daily BAU operations.

Unified Education & Career Platform:

- Developed backend services supporting 100,000+ users to expore educational courses and skill programs and institutional details.
- improved platform performance, engagement, and scalability through optimized services and APIs.

CERTIFICATIONS

- TypeScript: The New JavaScript for Web Development — Completed: Jan 2024
- Getting Started with AWS Services Fundamentals for Beginners — Completed: Jun 2024

EDUCATION

Master of Computer Applications (MCA)

Thakur College, Mumbai University | 2015 – 2018

Bachelor of Science in Information Technology (Bsc.IT)

Oriental College, Mumbai University | 2011 – 2014
